

Conferences

While the MVP Business Solutions team tends to operate at the local level, the overall MVP Business Solutions community is vast. Indeed, there are PPG customers right across the region taking advantage of the innovative program and MVP Business Solutions Conferences are where they all come together.

These major events offer valuable opportunities on so many levels. One of the most rewarding benefits is simply the ability to network with so many other like-minded collision repair professionals. For example, after expanding your knowledge base via one of the informative presentations, delivered by industry experts and keynote speakers, you can go on to discuss the content with other repairers over a meal or a quiet drink. Indeed, this opportunity to mingle can also be used to share ideas, brainstorm solutions to virtually any problem you can think of and generally work on business energising strategies. Of course, it can also be used to develop new and rewarding friendships with some interesting people.

No one said work and fun shouldn't mix and that makes an MVP Business Solutions Conferences a great place to turn challenges into opportunities!

Available as part of PPG's comprehensive support package, the MVP Business Solutions program is aimed at helping customers to improve performance across the full spectrum of business activities.
