

# Round Tables

**In a challenging industry where collision centre owners are generally isolated in their business, the ability to work with an enthusiastic group of likeminded people can be motivating and rewarding and this is the essence of MVP Roundtables.**

Strategically located across Australia and New Zealand, MVP Roundtables bring groups of collision centre owners together in order to network, learn new skills and share ideas. Hosted by expert MVP Business Solutions Managers, it's an ideal forum for sharing knowledge and experiences while working together on business improvement strategies. Everyone has something to offer. More 'mature' repairers have years of experience to share, while younger owners bring enthusiasm and fresh ideas to the table.

Constant learning is a key part of MVP Roundtables. Each meeting includes a presentation or guest speaker and can cover a wide variety of industry and business boosting topics. There are also visits to other businesses and an 'open forum' session where members can raise issues and seek input from other members and the MVP Business Solutions team. It's winners all round at MVP Roundtables!

*Available as part of PPG's comprehensive support package, the MVP Business Solutions program is aimed at helping customers to improve performance across the full spectrum of business activities.*
