

# Facility Layout & Design

**Building a new facility, renovating an existing structure or simply rearranging the current floor plan? An MVP Facility Layout & Design process is a must!**

Using extensive industry experience, the MVP Business Solutions team can provide valuable advice and a comprehensive support service which puts smooth workflow, maximised facility capacity and peak productivity at the forefront of the design.

In short, they understand the efficiency gains available simply through correct facility layout and design. MVP Business Solutions Managers are trained in the application of 'Lean' methodologies and can tap into a vast storehouse of knowledge involving the most up-to-date ideas and innovations for collision repair facilities. This wide-ranging knowhow also covers both light and heavy vehicle repair facilities.

Every site and build has unique obstacles but, more importantly, each offers exciting opportunities. The goal of the MVP Facility Layout & Design process is to work closely with you, your staff and your builders to develop a facility you are not only proud of but which also delivers the best possible performance long into the future!

*Available as part of PPG's comprehensive support package, the MVP Business Solutions program is aimed at helping customers to improve performance across the full spectrum of business activities.*
