

Financial Analysis & Monitoring

Trade skills alone are no longer enough to guarantee success. More than ever, collision centre operators need to understand the key drivers behind the financial performance of the business and the MVP Business Solutions team has everything you need.

From the fundamentals through to more complex financial and accounting aspects, your MVP Business Solutions Manager works with you one-on-one to pass on the knowledge required to not only survive in today's challenging marketplace but to ensure a decent return for all your hard work. As well as learning to understand key financial metrics, you will gain the tools and skills needed to tackle a range of crucial tasks with confidence. This includes the basics of understanding a Profit & Loss statement and calculating the true hourly rate your shop requires to be profitable, through to developing a financial business plan, setting goals and targets for the business and monitoring performance using Key Performance Indicators.

With a clear understanding of your business financials and the support of the MVP Business Solutions team, you will be perfectly placed to begin driving your financial performance to an all new level!

Available as part of PPG's comprehensive support package, the MVP Business Solutions program is aimed at helping customers to improve performance across the full spectrum of business activities.
