

MIRKA

Polarshine C15 sets a shining example for others to follow!

When you're ready to establish your own shining reputation, Polarshine C15 cutting compound is the perfect way to add the ultimate finishing touch.

This advanced cutting formulation is the quick and easy polishing option for efficiently producing a premium surface finish on both freshly applied and aged paintwork. Rather than cover up scratches, Polarshine C15 actually polishes them out before your eyes to leave a first class gleam. It is cost effective, safe and easy to use and even clean up is quicker and simpler thanks to the low splash, silicon-free compound.

Polish up your act with Polarshine C15

- Efficient scratch removal
- On lighter colours just one-step is needed to produce an excellent finish
- Versatile – ideal for both fresh or aged paint finishes
- Silicon free
- Low splashing reduces mess
- Cost effective

Polarshine C15 is designed to be used for machine application with Mirka's range of high quality polishing pads:

- **From P1500 sanding scratches with foam pads for fresh paint work and lighter jobs**
- **From P1500 scratches with wool pads for more demanding paintwork and larger surface areas**

Polishing guidelines

Wool pad Compounding

For more demanding paint works and larger surfaces use C15 + natural lamb's wool.

Foam pad

For fresh paint works use C15 + white or orange foam pad.

Polishing Dark surfaces

For swirl marks and hologram removal use F05 + black dotted foam pad.
