

Green Belt Training

Got a vision for the future and a sense of urgency to prepare for it plus a willingness to accept change while committing to a culture of continuous process improvement? Then Green Belt Training is for you!

This intensive, MVP Business Solutions-developed program focuses on delivering a perfect balance of 'Lean Six Sigma' principles and how they can be effectively applied to a collision centre business to achieve process improvement, reduced cost and increased quality. Access to these proven strategies and practice solutions makes Green Belt Training an ideal place for owners, as well as managers and lead technicians. Applying the principles of Green Belt Training creates an environment where technicians can work on vehicles without unnecessary interruptions, thus driving a dramatic reduction in key-to-key cycle-time.

Importantly, Green Belt Training comes with all the necessary tools required for these valuable lessons to be quickly implemented back in your collision centre. With ongoing support from an MVP Business Solutions consultant, the aim is to get an immediate and sustained impact that gives your business a competitive advantage!

Available as part of PPG's comprehensive support package, the MVP Business Solutions program is aimed at helping customers to improve performance across the full spectrum of business activities.
